OBJECTIVE

To leverage my skills in React.js and the MERN stack to develop innovative, user-friendly applications while contributing to impactful projects in a collaborative environment.

EDUCATION

B.E. IN COMPUTER (RECENT SEM SCGP 8.09)
SITRC NASHIK
XII: K.T.H.M NASHIK
X: S.S.V MADHYAMIK SCHOOL

2022-TILL

2021-2022

2019-2020

SKILLS & ABILITIES

- ❖ **JavaScript:** Experienced in creating dynamic web components and enhancing user interactions.
- ❖ **HTML & CSS:** Skilled in crafting responsive, semantic layouts using modern CSS frameworks like **Tailwind** and **Bootstrap**.
- ❖ **Full-Stack Development:** Skilled in the **MERN stack** (MongoDB, Express.js, React.js, Node.js) for building scalable web applications.
- ❖ **Version Control:** Proficient in **Git** for code management and collaboration; experienced in using **GitHub** for version control and project hosting.
- ❖ **Backend & Database:** Familiar with **Firebase** for real-time database management and authentication.
- ❖ **UI/UX Design:** Capable of designing modern, user-centric interfaces using tools like **Tailwind CSS** and **Bootstrap**.
- ❖ **Problem-Solving:** Strong analytical and debugging skills to troubleshoot and optimize applications.
- ❖ **Understanding and working with other programming lang. (C++, Python).**

EXPERIENCE

Project-Based Learning

- Home Service Provider Website:**
 - Built a responsive and dynamic platform connecting users with various home service providers.
 - Integrated React.js for smooth navigation and efficient user experience.
 - Emphasized backend scalability using MongoDB and Node.js.
- Personal Portfolio:**
 - Designed and developed a personalized portfolio website to showcase skills, projects, and achievements. This website create in only html, css and javascript.
- NASA Space Apps Challenge 2024 Participant (Hackathon):**
 - Collaborated with a multidisciplinary team to create innovative solutions for real-world problems under tight deadlines.
- Smart India Hackathon (SIH) 2023 & 2024:**
 - Competed in high-pressure environments, presenting solutions to complex problems with detailed presentations and working prototypes.

COMMUNICATION LANG

English (Intermediate)

Hindi (Native)

Marathi (Expert)

INTEREST

- ❖ **Game development in unity | 3D Modeling:** Skilled in using **Blender** to design and develop 3D assets
